3. Commercial circular no. 258 dated 25.1.2016

Sanction No.: Add EE/Chavni /TS /sanction/solar/21-22/ 130

dt.22.12.21

With reference to the proposal submitted by your office, the work: - Sanction of solar roof top metering connection load 125 KW in Shri SHREEYASH PRATISHTAN, G No. 258, Satara Tanda Aurangabad 431001 Consumer no. 490011929351 DTC: 4578350 (200 KVA)

The permission is granted to execute the work subject to the following conditions:

- 1) The work has to be carried out by licensed electrical contractor as per the MSEDCL's standard method of construction and under the supervision of MSEDCL's representative by and to entire satisfaction of Assistant Engineer, MSEDCL, Satara Section.
- 2) All the provisions for the solar roof top metering should be followed as per circular under ref no.(2) strictly for installation.
- 3) All the conditions of point no.6 i.e. Grid standards and safety of the circular no. 258 should be scrupulously followed.
- 4) The metering arrangement and the inter-connection of the Roof-top Solar PV System with the Network of the Licensee shall be as per the provisions of the Net Metering Regulations and the technical standards and norms specified by the Central Electricity Authority for connectivity of distributed generation resources and for the installation and operation of meters
- 5) The consumer shall install at his own cost a solar generation meter as per CEA regulations at an appropriate location
- 6) The equipment connected to the Licensee's Distribution System shall be compliant with relevant International (IEEE/IEC) or Indian Standards (BIS), as the case may be, and the installation of electrical equipment shall comply with the requirements specified by the Central Electricity Authority regarding safety and electricity supply.
- 7) If, at any time, the Licensee determines that the Eligible Consumer's Roof-top Solar PV System is causing or may cause damage to and/or results in the Licensee's other consumers or its assets, the Eligible Consumer shall disconnect the Roof-top Solar PV System from the distribution Network upon direction from the Licensee, and shall undertake corrective measures at his own expense prior to re-connection.

- 8) The Licensee shall not be responsible for any accident resulting in injury to human beings or animals or damage to property that may occur due to back-feeding from the Roof-top Solar PV System when the grid supply is off. The Licensee may disconnect the installation at any time in the event of such exigencies to prevent such accident.
- 9) The Eligible Consumer shall obtain any statutory approvals and clearances that may be required, such as from the Electrical Inspector or the municipal or other authorities, before connecting the Roof-top Solar PV System to the distribution Network.
- 10) The Eligible Consumer shall provide access to the Licensee to the metering equipment and disconnecting devices of Roof-top Solar PV System.
- 11) Additional physical back up protection to be provided in the event of Grid or phase failure at every point solar system connects to the grid.
- 12) The consumer shall exercise connection agreement on Rs. 200/- stamp paper with MSEDCL as per regulation 9 of MERC regulations, 2015
- 13) DTC 4578350 is near to completing capacity to release solar connection, see further that the solar connection will be released within permissible limit on this the DTC.

Sub: - Sanction of solar roof top metering connection load 125 KW in Shri SHREEYASH PRATISHTAN, G No. 258, Satara Tanda Aurangabad 431001 Consumer no. 490011929351 DTC: 4578350 (200 KVA)

Ref: - 1. AE/ Satara /TS/feasibility dated: 17.12.2021
2. consumer application dated 30.11.2021
3. Commercial circular no. 258 dated 25.1.2016

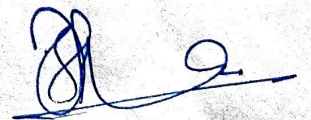

Sanction No.: Add EE/Chavni /TS /sanction/solar/21-22/ 130

dt.22.12.21

With reference to the proposal submitted by your office, the work: - Sanction of solar roof top metering connection load 125 KW in Shri SHREEYASH PRATISHTAN, G No. 258, Satara Tanda Aurangabad 431001 Consumer no. 490011929351 DTC: 4578350 (200 KVA)

The permission is granted to execute the work subject to the following conditions:

- 1) The work has to be carried out by licensed electrical contractor as per the MSEDCL's standard method of construction and under the supervision of MSEDCL's representative by and to entire satisfaction of Assistant Engineer, MSEDCL, Satara Section.
- 2) All the provisions for the solar roof top metering should be followed as per circular under ref no.(2) strictly for installation.
- 3) All the conditions of point no.6 i.e. Grid standards and safety of the circular no. 258 should be scrupulously followed.
- 4) The metering arrangement and the inter-connection of the Roof-top Solar PV System with the Network of the Licensee shall be as per the provisions of the Net Metering Regulations and the technical standards and norms specified by the Central Electricity Authority for connectivity of distributed generation resources and for the installation and operation of meters
- 5) The consumer shall install at his own cost a solar generation meter as per CEA regulations at an appropriate location
- 6) The equipment connected to the Licensee's Distribution System shall be compliant with relevant International (IEEE/IEC) or Indian Standards (BIS), as the case may be, and the installation of electrical equipment shall comply with the requirements specified by the Central Electricity Authority regarding safety and electricity supply.
- 7) If, at any time, the Licensee determines that the Eligible Consumer's Roof-top Solar PV System is causing or may cause damage to and/or results in the Licensee's other consumers or its assets, the Eligible Consumer shall disconnect the Roof-top Solar PV System from the distribution Network upon direction from the Licensee, and shall undertake corrective measures at his own expense prior to re-connection.

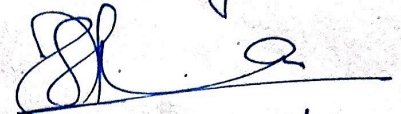

- 8) The Licensee shall not be responsible for any accident resulting in injury to human beings or animals or damage to property that may occur due to back-feeding from the Roof-top Solar PV System when the grid supply is off. The Licensee may disconnect the installation at any time in the event of such exigencies to prevent such accident.
- 9) The Eligible Consumer shall obtain any statutory approvals and clearances that may be required, such as from the Electrical Inspector or the municipal or other authorities, before connecting the Roof-top Solar PV System to the distribution Network.
- 10) The Eligible Consumer shall provide access to the Licensee to the metering equipment and disconnecting devices of Roof-top Solar PV System.
- 11) Additional physical back up protection to be provided in the event of Grid or phase failure at every point solar system connects to the grid.
- 12) The consumer shall exercise connection agreement on Rs. 200/- stamp paper with MSEDCL as per regulation 9 of MERC regulations, 2015
- 13) DTC 4578350 is near to completing capacity to release solar connection, see further that the solar connection will be released within permissible limit on this the DTC.
